Interpersonal skills: Team player, Optimistic, Problem Solving

TECHNICAL PROJECTS

Connect Four - [GitHub](#) | [App](#) - JavaScript | CSS | HTML

An Arcane themed online Connect Four Game, with images, music and voicelines from the hit Netflix show.

- Created application with HTML, CSS, and JavaScript.
- Styled pieces, music, sounds, and voice lines to the arcane show.
- Utilized animations to add board shake and fall animation for a little extra feel.

Anime Review - [GitHub](#) | [App](#) – MongoDB | Mongoose | Express | EJS | RESTfulRouting | Azure

A social media esq approach to anime reviews where users can add shows, leave reviews, and add friends.

- Utilized MongoDB and mongoose to create a database users can interact with to create shows and reviews.
- Utilized GoogleAuth to allow users to log in and interact with others.
- Used RESTful Routing to create, read, update, and delete most features within the application.

App Name - GitHub | App - Coding language used | Coding language used

One sentence about what the app does, think of this like a one-line marketing pitch

- Bullet points that describe the features you created in your app. Use the formula:
- Action verb + what you did + result
- Action verb + what you did + result
